

Surplus furniture after a P21 project

In NSW surplus furniture is handed to the School Principal at the end of the project.

A School Principal can choose whether to re-use the furniture in the school, sell the furniture; donate the furniture to a local charity; or ask that it be disposed of or removed from the school site by the Managing Contractor.

If the school wants the furniture removed, the Managing Contractor will use the most cost-effective method of disposal, which is usually disposal to landfill.

If school principals have any questions, they should contact their Managing Contractor. School Principals can access current contact details through the DET Intranet at:
